- Drop Down Menus

New “Blessed Hope” Theme

This month we are pleased to announce a new theme for *netAdventist* based on Nathan Greene’s “Blessed Hope” painting. This theme includes the newly introduced ability to replace the banner image without downloading and modifying the theme itself through the use of the Banner Image Widget. The theme also includes drop down menus managed by the web site’s menu building interface.

Download at: <http://www.netadventist.org/blessedhope>

The screenshot displays the website for Fairhill Adventist Church, featuring the new 'Blessed Hope' theme. The header includes the Seventh-Day Adventist Church logo and the church's name. The main banner is a large, vibrant painting of angels and Jesus Christ, with a rainbow in the background. Below the banner is a navigation menu with links for Home, Newsletter, Calendar, Our Church, Our Pastors, and What We Believe. The main content area is divided into two columns. The left column contains a welcome message and a photograph of the church building. The right column features a search bar and two article teasers: 'The Bible Says: The King is Coming!' and 'A Writer's Worth'. A 'Sabbath Time' section is partially visible at the bottom.

SEVENTH-DAY ADVENTIST CHURCH

Home Newsletter Calendar Our Church Our Pastors What We Believe

Welcome to the Fairhill Seventh-Day Adventist church!

As Christians, we believe that love - for God and for man - should be the central theme of our lives.

As Adventists we believe that the return of Christ is imminent, and that our mission is to spread this message to the world.

We believe that the Sabbath is a gift from God. A day where we put all the stresses of the world behind us and focus on renewing our relationship with God.

The Bible Says

The King is Coming!

"The King is coming! Prepare the way." The message spread by drum beat across the hilltops, and r...

A Writer's Worth

Writers display many genres and styles. However, for the Christian writer, the craft is more than...

New Education Themes

This month we are also pleased to announce a variety of education and general purpose themes for *netAdventist*. Some of these themes are specific to certain subject areas, others are more general purpose and could be used for almost any web site. These themes take advantage of the Banner Image Widget to include a photo in the page layout.

Banner Image Widget

The Banner Image Widget, when combined with new netAdventist themes, offers web sites the ability to easily change the banner graphic. It also includes the ability to place multiple images in the banner area, from which the system will choose one at random. If a URL is included alongside the picture, it could also be used to create rotating banner ads.

To place a banner image widget:

- 1.) Log into your web site.
- 2.) Navigate to the Website Pages tab.
- 3.) Choose Theme and Templates from the lefthand sidebar

- 4.) Click to edit the Template you would like to add a banner image to.
For these new themes, a good place to start is the “home” template.
- 5.) Choose the “Widgets” tab.
- 6.) Click to add a widget to the banner area of the page.
- 7.) Add the Banner Image Widget.
- 8.) Click the blue text on the widget to customize it by adding photos.
You should choose or upload photos that match the shape of the widget area you are filling. You may add multiple photos and the system will rotate between them.
- 9.) Choose the done button once you have completed adding photos.

Congratulations you have changed the banner area of your site! If you wish to have more than one banner for different pages, simply create a template for each different banner style you wish to show and add different images to the banner image widget placed on each template.

Drop Down Menus

The ability to include drop-down menus has been a sought-after feature by web designers. This ability has been recently introduced. Interested web designers can find an example for how to include drop-down menus that work with netAdventists native menuing tools by downloading the new Blessed Hope theme. The drop down menu modifications do not change how any existing netAdventist themes work.
